JEFFREY A. KOUNTER, MBA - Finance

jakounter@yahoo.com   316-992-3219

Professional Brand Statement

I am seeking a full stack web development position with the skills i learned at the KU full stack coding Bootcamp certificate program.

I learned many many techniques in JavaScript, react JS, and database/data management with SQL and Mongo organizational structures.

In my work at PNC i have developed many process improvements within the Microsoft suite of programs which is SQL based.

In the certificate program, i developed an MVC portfolio website and our final project where i did 95% of the underlying back end code and about 70% of the front end code in a react JS and Mongo environment (Roome).

Technical Skills

- Git
- HTML5
